Dear Partners,

I am glad to inform you that yesterday morning we could finally submit the project application of RENFORCE - Resilience ENhancing to adapt FORests to Climate change Effects and to prevent biotic and abiotic hazard (the title suggestion came from our colleague and spanish partner CTFC).

As an attachment I share the project budget uploaded after the individual consultations and I will shortly send you the partner declarations that we have to upload before 26/06/2024.

So far, thank you very much for your valuable cooperation and great efforts!

I am available for any query you might have within the next few days.

Regards,

Elisa

Dear Partners,

I hope you are all fine!

As an attachment please find the work plan with the list of WP leaders, activities planned and main partner involved in each activity. For sure in particular for the WP2 a full and active involvement of all Partners will be demanded.

I also attach the budget template to complete with a budget breakdown suggestion per cost category and partner, so we can start compiling a draft of the total budget as well.

Please, do not hesitate to contact me if you have any questions or concerns.

Regards,

Elisa
